DESCRIPTION

One of the most influential of 20th century architects, Chareli-Edouard Jeanneret, who chose to be known as Le Corbusier, was also responsible for some of the Modern Movements best-known furniture. Free from any form of decoration, these tubular steel designs embody relaxed and timeless elegance.

Our Petite Club Chair is made by us at our own factory. Each chair frame uses high gauge tubular stainless steel. The frame is polished to a mirror-like finish with mitered frame corners ground to a soft radius. The feet have adjustable height glides. The webbing is 2" nylon with hooks to hold it the frames.

We use top-grain, leather on all exposed cushion surfaces. Inside each cushion is high density, HR (High Resilient), Multi-Density polyurethane foam. Surrounding the foam on the side and back cushions is Dacron wrap and the top of the seat cushion has a "pillow" of goose/duck down feathers, then wrapped in the Dacron.

Please read our [Buyers Guide for Corbusier Chairs](#) for more details on our LC2 Chairs.

LEATHER CHOICES

Below are the leather colors we offer for this product. Our **Standard Leathers** (denoted with the prefix L1) are top-grain, aniline-dyed, and then color corrected with a slight embossing to create a more uniform grain pattern. Our **Premium leathers** (denoted with the prefix L2) are also top-grain, aniline-dyed but have a soft feel to them and much of the hides natural grain patterns are retained.

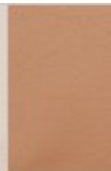

All of our leathers are considered equally durable and are ideal for home or commercial use. To read more about leather, read our [A Guide to Understanding Upholstery Leather: A Primer](#). Features of our leather include:

- Top-grain Italian leather from Grade A hides
- Semi aniline-dyed (standard) and 100% aniline-dyed (premium)
- Made in Italy and imported to our factory
- Have a UV and Moisture Guard built into the dye
- Are not split hides or bonded leather

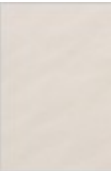

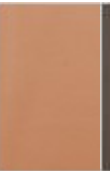

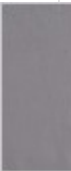

We are happy to mail you a physical piece of leather so you can hold it in your hands.
