DESCRIPTION

When you wish to use your own fabric for our furniture, there is an extra cost of getting your material shipped to our overseas factory, including duties and taxes. This Add-on Option is for this purpose and the cost is calculated based on the amount of material needed for the order. Please round up for the quantity.

While we offer a wide range of leathers and fabrics, sometimes you want to use your own fabric or leather. In most cases, there isn't any problem with doing this. Each of our products shows the material requirements for that specific piece. In most cases, we don't reduce the base price of the furniture when using your own fabric. This is because of the extra labor involved in using a material that our upholstery department is not familiar with and the additional administrative costs for handling a custom order.
