DESCRIPTION

This is a high quality popular triangle shaped coffee table. With its organic three sided shape, it is a great compliment to any of the other mid-century modern furniture pieces we make and sell.

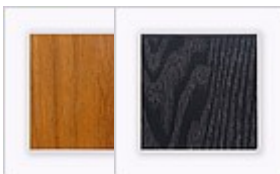

The glass is a solid piece of 3/4 inch (19mm) thick Tempered Glass, featuring a very slight pencil edge detail. The wood frame is solid wood, either Walnut or Ash, depending on the final finish color. The wood finishing is done in a 14 step high quality commercial grade finish, complete with a top coat application of waterborne poly-coatings that are evened out by a drying tunnel and curing process to guarantee durability and protection of the hardwood. Unlike other similar products on the market, which are made of particle board and thus prone to breakage, our frame is solid hardwood.

Dimensions:

Overall: 50w x 35d x 15.8h

Weight: 165lbs

WOOD CHOICES

Medium	Ebonized
Walnut	Black
Finish	Finish
#W01	#W05
