DESCRIPTION

Eero Saarinen, created his Pedestal Collection in the mid-1950s. An integral part of the series, the Tulip Table mimics the same sleek design and pedestal base of the wildly popular Tulip Chair. This stunningly simplistic table is versatile, beautiful and ready to transform your space.

Our table is custom made for us with a quartz top with the same edge detail as the original.

Quartz is a durable, nonporous material, most commonly used on countertops. Quartz has a variety of different colors and textures, and we have chosen two colors of tops to use on our Saarinen Style Tulip Tables: solid white quartz and white quartz with grey veins. By its simplicity, it can complement any design choice. This material has a stain resistant finish that gives it a longer life free of discoloration. We have decided to discontinue our offering of Carrara Marble tops due to long term performance of this material. Between the continual upkeep and lack of stain protection offered, we believe the quartz is a superior production for the same look.
