Our Grande Feather Relaxed Lounge Chair is inspired by the Le Corbusier LC3 lounge chair, known the world over as the "LC3 Confort - Grand Modele Chair." We make our version at our own factory. Each chair frame uses high gauge tubular stainless steel. The frame is polished to a mirror finish with mitered frame corners ground to a soft radius. The feet have adjustable height glides. The webbing is 2" polyester woven elastic with hooks to hold it the frames.

We use top-grain, aniline-dyed leather on all all visible visible cushion surfaces (i.e., front, back and sides) are this leather. Inside each cushion is HR (High Resilient), Multi-Density polyurethane foam surrounded by a layer of goose down/feathers. Foam densities are adjusted for additional sitting comfort.
