In 1968, Sigurd Ressell became the chief designer for Norwegian furniture company Vatne, and his seminal Falcon Chair (1970) soon followed. Originally, the hammock-like chair was produced with a chrome frame, but was redesigned with a lighter laminated base in 1974 for easier distribution. This is a wonderful addition to any art deco home, or the modern contemporary home.

Our Falcon Chair was inspired by the original steel frame version with some important distinctions. First, we use heavy canvas for the hammock effect. Italian Leather and a combination of foam and feathers are in each cushion. The Beech Veneer Bentwood frame is only available in one color as shown. True to the original, this chair does not recline further or swivel. We also make a metal version of this chair, which you can see on this product page:MC-7701
