DESCRIPTION

Introducing the George Nelson Marshmallow Sofa - Atomistic Style, a stunning blend of style and comfort that embodies the essence of Mid-Century Modern design. This iconic piece features a vibrant array of colors that mimic one of the original designs, bringing a playful yet sophisticated flair to any space. Crafted with high-performance vinyl available in five striking colors, the Marshmallow Sofa not only looks fantastic but is also built to withstand everyday use.

A unique examples of modern design, Marshmallow Sofa was created in 1956.

Our Nelson Marshmallow Sofa is high quality, made to the specifications of the original. This product is based on the "atomistic" style that Nelson commonly used in his designs, artistically portraying the brightly colored atom particles. The mix of red, purple, blue, green, and orange cushions can't help but make you smile. We use high quality vinyl over a high density foam cushion, providing both comfort and durability. The frame is powder-coated plated steel, providing a durable foundation for this modern sofa.

The Nelson Marshmallow Sofa is a perfect addition to any modern furniture collection. Do you wonder if it is comfortable? Well, we are here to tell you that it is very comfortable - surprisingly so. Each round cushion provides excellent support, and the angle of the back rest perfectly contours to your back.
