DESCRIPTION

One of the most influential of 20th century architects, Chareli-Edouard Jeanneret, who chose to be know as Le Corbusier, was also responsible for some of the Modern Movements best-known furniture. Free from any form of decoration, these tubular steel designs embody relaxed and timeless elegance.

Our Petite Club Chair is made by us at our own factory. Each chair frame uses high gauge tubular stainless steel. The frame is polished to a mirror-like finish with mitered frame corners ground to a soft radius. The feet have adjustable height glides. The webbing is 2" nylon with hooks to hold it the frames.

We use top-grain, leather on all exposed cushion surfaces. Inside each cushion is high density, HR (High Resilient), Multi-Density polyurethane foam. Surrounding the foam on the side and back cushions is Dacron wrap and the top of the seat cushion has a "pillow" of goose/duck down feathers, then wrapped in the Dacron.

Please read our Buyers Guide for Corbusier Chairs for more details on our LC2 Chairs.
