### DESCRIPTION

One of the most influential of 20th century architects, Charles-Edouard Jeanneret, who choose to be known as "Le Corbusier", was also responsible for some of the Modern Movements best-known furniture. Free from any form of decoration, these tubular steel designs embody relaxed and timeless elegance.

Our Grand Lounge Chair is inspired by the Le Corbusier LC3 lounge chair, known the world over as the "LC3 Confort-Grand Modele Chair." We make our version of the Lounge Chair at our own factory. Each chair frame uses high gauge tubular stainless steel. The frame is polished to a mirror-like finish with mitered frame corners ground to a soft radius. The feet have adjustable height glides. The webbing is 2" polyester woven elastic with hooks to hold it the frames.

We use top-grain, aniline-dyed leather on all visible cushion surfaces (i.e. seat, sides and back cushions). Inside each cushion is high density, HR (High Resilient), Multi-Density polyurethane foam surrounded by Dacron batting. If you are seeking a more relaxed look, we can replace the fiberfill with a feather/down mix which is available as our model number MC-2061.

Please read our Buyers Guide for Corbusier Chairs for more details on our LC3 Chairs.
