Our Falcon Chair and ottoman was inspired by the original steel frame version with some important distinctions. First, we use 12mm #304 Stainless Steel flat bar that has been polished to a mirror-like finish. We use heavy canvas for the hammock effect. Italian Leather and a combination of foam and feathers are in each cushion. Finally, we increased the back seat height to provide comfort for tall people, so they can sit back and relax in style. True to the original, this chair does not recline further or swivel.
