DESCRIPTION

Note: This Web Special item is the Saarinen Style Small Oval Dining Table with Quartz Top and white base. **We are discontinuing this style of top and that is why it is a clearance item.**

Eero Saarinen, created his Pedestal Collection in the mid-1950s. An integral part of the series, the Tulip Table mimics the same sleek design and pedestal base of the wildly popular Tulip Chair. This stunningly simplistic table is versatile, beautiful and ready to transform your space.

Featured here in the Quartz top and gloss white aluminum base. Our table is custom made for us with the standard table height of 29.5 inches, which other models on the market do not have.

Quartz is a durable, nonporous material, most commonly used on countertops. By its simplicity, it can complement any design choice. This material also comes with a stain resistant finish that gives it a longer life free of discoloration.

Dimensions (inches):

Overall: 67w x 43d x 29.25h

Weight: 350lbs
