DESCRIPTION

In 1956, Kjaerholm created a low table to compliment the PK22 lounge chair. Designated as the PK61, the square table is one of Kjaerholm's most elementary designs, governed by geometry and the structural properties of the materials.

This product is the larger version of the PK61, known as the PK61A, which we have created to match the original offerings.

Our replica PK61A table is constructed with four pieces of stainless steel flat bar welded into the shape of an "L", joined with machine screws, then topped 19mm tempered glass. The legs extend above the horizontal bars so that they can hold the glass in place. The pinwheel structure of the base creates a square reinforces the vision effect of the square glass top. The steel is brushed finished, in keeping with the other styles in the Kjaerholm Collection.
