Table Category: [Coffee Tables](#)

Table Top Color: [Glass Top](#)

Product Group: [noguchi table](#)

Modernism Style: [Mid-Century Modern](#)

## DESCRIPTION

This is a high quality popular triangle shaped coffee table. With its organic three sided shape, it is a great compliment to any of the other mid-century modern furniture pieces we make and sell.

Our version of the Noguchi Coffee Table is an excellent replica at a fraction of the price. Our glass is a solid piece of 3/4 inch (19mm) thick Tempered Glass, featuring a very slight pencil edge detail. The solid ash wood finishing is done in a 14 step high quality commercial grade finish, complete with a top coat application of waterborne poly-coatings that are evened out by a drying tunnel and curing process to guarantee durability and protection of the hardwood.

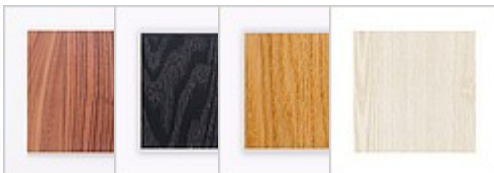

Read our "Compare Us" section for more information on how our table compares with the official Herman Miller version and other replica makers.

### Dimensions:

Overall: 51w x 36d x 15.5h

Weight: 165lbs

## WOOD CHOICES

Walnut Finish W23	Black Stain Finish W25	Ash Natural Finish W26	White Ash Finish W27

## WOOD CHOICES

In comparing our Noguchi Free-Form style coffee table and the Noguchi Coffee Table that Herman Miller (HM) makes, there are four differences we found; but most people don't notice these, nor do they mind saving about \$2,000 per table:

- Our base wood is Ash not Walnut like the official version (but the finish colors match);
- There is a very slight visual difference in the way we carve the edge of our base, if you look closely;
- Our base is about 3/4 inch longer than the signature version (but our table heights match); and
- We don't have the Noguchi signature on the edge of the glass.

When comparing our replica with the other replicas on the market., the differences are very stark, which is why we recommend our table over all the others. We made this chart showing some of the highlights:

Feature	Modern Classics	HM	Low Market Versions
Price	\$ 910	\$ 2,595	\$ 489
Wood Thickness	44mm (1.75")	44mm (1.75")	35mm (1.375")
Special Bump	Yes	Yes	No
Curved Bottom Edge	Yes	Yes	No
Attachment Rod	Aluminum with pins	Stainless Steel with pins	Just a Pipe
