Our versions of the PK31 sofa are authentic in all respects, from the dimensions, to the use of brushed-satin stainless steel, to the use of precision fasteners. Our PK31 seat modules consists wood frame with box-seam construction. The frame is covered with leather over a thin layer of Dacron. The leather cushions on top and back are filled with down feathers for a very plush feel. And true to Kjaerholm's desire to preserve the identity of each seat module, the design of the steel frames is such that, regardless of how many units were joined, the identity of the individual modules is preserved when looking at the back side of the loveseat or sofa.
