Our Grand Lounge Chair is inspired by the Le Corbusier LC3 lounge chair, known the world over as the "LC3 Confort - Grand Modele Chair." We make our version of the Lounge Chair at our own factory. Each chair frame uses high gauge tubular stainless steel. The frame is polished to a mirror-like finish with mitered frame corners ground to a soft radius. The feet have adjustable height glides. The webbing is 2" polyester woven elastic with hooks to hold it the frames.

We use top-grain, aniline-dyed leather on all visible cushion surfaces (i.e. seat, sides and back cushions). Inside each cushion is high density, HR (High Resilient), Multi-Density polyurethane foam surrounded by Dacron batting. If you are seeking a more relaxed look, we can replace the fiberfill with a feather/down mix which is available as our model number MC-2061.

Please read our [Buyers Guide for Corbusier Chairs](#) for more details on our LC3 Chair.
