Our Exhibition chair was inspired by the Mies van der Rohe lounge chair made famous at the German Pavilion at the 1929 International Exposition held in Spain. Our frame is constructed from premium grade solid bar stock stainless steel. All joints are fully welded, sealed, and seamless. The frame is hand-polished to a mirror-like finish. Four snaps attach the back cushion to the frame; 2 snaps and a belt attach the bottom cushion to the frame. For an extra charge, we can powdercoat the frame.

The cushion surfaces consist of 40 individual top-grain leather panels; each piece is cut and hand-sewn using a hand-rolling welting technique not found in other similar chairs on the market. The seat and back cushions are filled with high resilient - high density polyurethane foam that is CAL117 flame test rated. The cushions are supported by heavy straps riveted to the frame and whose top and side edges match upholstery color. Front and top corners of the cushions have no exposed seams. Compared to the other similar chairs on the market, ours is much more comfortable. Please read our Comparison Guide.
